

Book: Tekdüzen Hesap Planına Göre Açılıştan Kapanışa Bir Muhasebe Uygulaması

Accounting is about decision making using financial information. In this book **Prof. Dr. Kutlan, Prof. Dr. Sumer and Prof. Dr. Argun** have specially designed the accounting cycle from the beginning till the end according to the Turkish accounting and tax legislation.

The book includes tutorials, interactive animations, and practice questions that provide readers with additional, beyond the book instruction on the accounting cycle.

This book also provides a no password required online practice environment where readers can work on problems that help them master the accounting cycle and gauge their comprehension.

The book covers the full range of topics in financial accounting: financial statements, processing information, accrual accounting, internal control and cash, short-term investments and receivables, inventory, plant assets, current and long-term liabilities, stockholders' equity, long-term investments and international operations, using the income statement and statement of stockholders' equity, the statement of cash flows, and financial statement analysis.
