

# Book: International Tax and Business Guide

---

GGI's practice group "International Taxation" has designed a practical tool for key information in tax and business matters for all decision makers engaged in business abroad.

Clearly structured, 42 countries are introduced by local experts providing the reader with insider knowledge for doing business in their countries with a special focus on tax issues. The country profiles are flanked by a chapter with articles on general international tax aspects, all limited to a readable volume, clear and understandable to non-tax experts. Appendices containing information at a glance such as tax and a holding company matrix, overviews on double taxation treaties and recent tax information exchange agreements.

**International Tax and Business Guide**  
by Geneva Group International (GGI)

Editor: O. Bienart

Co-Author: Eldem Kutlan
